DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl Brundidge on 5/11/2007.

(1) Regarding claim 2:

On the first line under the "Expression 1", replace "wherein m_i ($j=1, 2, \dots, n$; $n=\text{code length}$)" by --- **wherein m_j ($j=1, 2, \dots, n$; $n=\text{code length}$)**---

(2) Regarding claim 4:

On the third line, replace "the number of taps on the transmitter" by ---**code length**---

Response to Remarks

1. Applicant's remarks, see page 6-7, filed 4/10/2007, with respect to double patenting rejections on claims 2 and 5-12 have been fully considered and are persuasive. The terminal disclaimer has overcome the double patenting rejections; therefore the rejections of claim 2 and 5-12 have been withdrawn.

Allowable Subject Matter

2. Claims 2-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention describes a spread spectrum communication device and communication system wherein the transmitter has a pseudo noise code generator for generating a code sequence having a code length of at least 14 and having a value corresponding to a peak of one of plural absolute auto-correlation side lobes having a smallest value. This distinct feature has been added to the independent claim 2, therefore rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
